Group #1 Project #2 Proposal

Project Title: Feed?

Team Members: Ivelisse Cintron, Nick Akrap, Samuel Zun, Yulin Mao, Joanne Lee

Project Description: Our application will ask the user/family member to build a preference for what they would like to eat for breakfast, lunch, or dinner. That data will then be stored and randomly generate a family meal plan calendar.

Sketch: https://gomockingbird.com/projects/w0dyvdi/4gXVnC

APIS: Possibly using Yummly?

Breakdown of tasks: see flow chart

Project Roles:

Project Manager: Nick

Front End: Ivelisse, Joanne

Back End: Nick, Yulin, Sam
